SITE AND SOIL PERMIT APPLICATION

*****THIS IS NOT A SEPTIC PERMIT*****

Site Address: _____ City: _____ Zip Code: _____

Township/Village: _____ Lot#: _____ Subdivision: _____

Owner/Applicant: _____ Phone: _____

Mailing Address: _____ City: _____ Zip: _____

Is the property in the 100 year floodplain or a flood way? Y / N

Has the property been stripped or surfaced mined? Y / N

Will this be a new construction? Y / N

Will there be a basement w/ bath or laundry? Y / N

Number of bedrooms: _____ Acres: _____

Directions to site:

I, the owner or owner's legal representative, agree to allow representatives of the Vinton County Health Department access to the described parcel to perform necessary soil tests. I understand that this is not a permit and in no way guarantees that a septic can be installed on this property. I also understand that I will be required to obtain a permit before construction of the septic may begin. The permit will not be valid until issued. I further agree to install, operate, & maintain the sewage treatment system in accordance with the Ohio Administrative Code and the Vinton County Health Department regulations. I agree to contact the Health Department for final inspection of the sewage treatment system at least twenty-four (24) hours prior to backfilling and will not occupy the property until approval is granted. The Vinton County Health Department assumes no responsibility for the efficient functioning of any private sewage system. Proper maintenance is essential. I understand that if any information submitted on this form is inaccurate, the permit will not be issued or if it has been issued, it will then be considered void. I am responsible for ensuring all utility lines are marked prior to any excavation. I also understand that excavating any area deems that area unusable for septic.

Owner/Applicant's signature: _____

Date: _____

Return the permit application to the Vinton County Health Department, with the appropriate fee and a copy of your plat map, deed and property description. These documents must include information such as any recorded easements, length and location of lot lines. Plat maps can be attained at the auditor's office. An appointment will be scheduled to meet with you or your representative at the property to conduct the site evaluation. You will need to arrange to have the means to provide a test pit with the dimensions of 3'W x 3'L x 4' D during the evaluation. Lot lines must be clear or they will need to be flagged. An address is required before permits can be issued.
